

2
The ornament of claim 1 wherein the contoured walls form a conical shaped core at the center of mass and has at the periphery a wall thickness of 50% less than the wall thickness at its center of mass.

3
8. The ornament of claim 7 having the wall thickness tapered gradually from about 1/8 inch thickness at the center of mass to about 1/16 inch at the peripheral wall thickness.

CHANGE OF INVENTOR

The applicants have submitted a petition and two verified statements in order to add co-inventor Tamara Sheffield.

REMARKS

Claims 1 through 5 have been canceled and newly added claims 6, 7 and 8 now appear in the case.

Old claims 1 through 5 were objected to under 35.U.S.C.112 for a number of reasons, all of which have been obviated by the newly added language. For example:

(a) such phrases as "the wall thickness... can be uniformed" has been deleted.

Antecedent basis has also been added for language which previously did not have such antecedent basis, and

(b) various indefinite language has been either negated or made more clear.

The applicant wishes to sincerely thank the Examiner for according the telephone interview on about March 16. The claims have been modified to combine the key limitations into the principle claims as per discussion with the Examiner.

Additionally, by adding the inventor Tamara Sheffield and correcting the inadvertent mistake of inventorship, it should now be apparent that the invention is commonly owned with
